## TECHNICAL DATA SHEET

# EW Handdryer Whisper 1.0

**The EW Whisper is one of the quietest hand dryers in its class\*, making it the perfect solution for primary schools, nurseries, offices or locations where a discreet hand drying solution is required.**

The hand dryer has attained the Quiet Mark, the international approval award programme associated with the UK Noise Abatement Society charitable foundation. It encourages companies worldwide to prioritise noise reduction within the design of everyday appliances, and find solutions to noise problems.

### Quiet

The EW Whisper is the perfect solution for locations where noise is a concern. For those washrooms situated close to a classroom, office or quiet restaurant, noise levels need to be managed and reduced.

Young children can also become anxious around noisy hand dryers, which makes the EW Whisper the ideal fit for primary schools. The low noise combined with the warm dry adds an extra level of comfort and peace of mind. EW Whisper is cost effective to run, only £0.09 for 150 dries.

\* Warm Air Dryers

### Key features

- Certified QUIET in use – a low noise, low energy, warm air dryer
- Quiet Mark accreditation, tested as one of the quietest in its category
- Warms air even in a cold room environment, raising ambient temperature from 25°C to 37°C during the dry.
- Cost effective to run, only £0.09 for 150 dries.
- Secure click-on design for easy install and maintenance
- EW Connect and back plate can be fitted at first fix, allowing dryer body to be fitted by a non-electrically qualified person at a later date
- Hygienic, as touchable parts contain an antimicrobial additive to reduce build-up of bacteria, germs and viruses
- Slim, compact and modern design makes it ideal for restricted space areas
- Automatic operation, infrared eye looking for movement within 18cm from the base of the dryer.
- Strong and durable ABS plastic cover with single LED to communicate the dryer is connected to the power supply

CERTIFIED QUIET. WARM IN USE
