EWPS/1.0

TECHNICAL DATA SHEET

EW Purification System 1.0

Does your current Boiling Tap have a 'Anti-scale-filter'?

Is there still lime-scale on the nozzle?

We know the answer to the question is yes.

We don't 'Manage or reduce lime-scale'

We 'ELIMINATE' it!

90% of problems with Hot Water Products are caused by lime scale..

No Lime-Scale, longer life-cycle, no chemicals, better tasting water, all provided by a market leading company.

The purification system can be fitted retrospectively to any Boiling asset or Coffee Machine.

We have created the technology to eliminate your lime-scale issues, are you ready to join the increasing number of multi-national companies who are already reaping the benefits from the purification system.

Key Features

- Vastly improves reliability of your product
- Prolongs the life span of your equipment.
- Proven fact drinking pure water provides huge health benefits.
- All beverages taste better as no chemicals in the water.

TOTALLY 'ELIMINATES' LIME-SCALE
