EWVS/3.0

TECHNICAL DATA SHEET

EW Volumising Quadra-Flow Shower 3.0

The EW Volumiser Shower marks the dawn of a revolutionary new era in shower technology.

The market-leading patented technology integrated into every EW Volumiser Shower creates a powerful, yet incredibly delicate, volumised mist that vastly increases the surface area of the water that comes into contact with your body resulting in a far more comfortable shower experience that literally 'Drenches' you and leaves your skin intensely rejuvenated and incredibly soft to the touch.

The EW Volumiser Shower is like having a personal spa in your own bathroom and, with huge reductions in the volume of water and energy used - saving you an incredible 70% + of water when compared to other showers - the EW Volumiser Shower is a true world leader in helping you to save both energy & money.

The fabulously sleek, minimal & contemporary design of the shower housing is complemented by a high chrome finish and features a quad spray pattern with wipe clean nozzles for the ultimate showering experience.

Experience the stunning EW Volumiser Shower for yourself today.

Welcome to the future!

Continuous

Continuous

EASY INSTALLATION TO FIT COMMON M22 & M24 HOUSING

- 1 Remove old aerator from faucet. Use wrench if necessary.
- 2 Remove any old washers that might be caught inside the spout.
- 3 Clean the threads inside the spout by hand.
- 4 Install the new Drenched Volumiser onto the spout by hand.
- 5 Turn on Faucet. If leak occurs, tighten more firmly.

For female faucets with inside threads
